ABOUT PRESCRIPTIONS

You certainly would not employ any physician you did not have the utmost confidence in. And yet his prescriptions are not worth the paper they are written on until they have been filled at some drug store, and filled right. That is why it is just as important to be careful about selecting your drug store as it is to be careful in selecting your physician.

A little carelessness in filling a prescription, or the use of stale, inert drugs, may defeat the physician's purpose at a crucial time with serious results.

The best physicians in Washington send their patrons to the People's Drug Store to have their prescriptions filled, because the medical profession knows how particular the People's Drug Store is to have only prescription pharmacists of the highest ability and experience and how fresh our drugs are, due to frequent purchases.

When a Drug Concern will prepare and send out as many prescriptions in a day as we do, it shows pretty conclusively the confidence the public has in our methods. It also means to you economy, safety, and promptness.

HOUSEHOLD DRUGS

Purity of household drugs is very necessary to the household. All our powdered drugs are contained in sealed heavy cardboard cartons—NOT IN PAPER BAGS. They are plainly labeled. These cartons prevent the contents from becoming wet, and eliminate the danger that is likely where drugs are sold in paper bags.

Thymole Antiseptic Powder

For Mouth, Nose, and Throat.

A new and scientific germicide and prophylactic; highly commendable; is prescribed by dentists. An attractive feature of Thymole Antiseptic Powder is its convenience to travelers, as it takes the place of all liquid antiseptics, while the danger of breakage and damages resulting thereby are eliminated. A pinch of Thymole Antiseptic Powder makes a tumbler of excellent antiseptic solution.
